Western Liago Served By a Humorist.

Bill Nye, in the Denver, (Col.) Tribune, says: "One night about 12:30, Judge, I heard some one step along to the window of my boudoir. Hearing it at that time of night, I reckoned that something crooked was going on, so I slid out of bed and got my great blood-scurfer and purifier, with the new style of centre fire and cartridge ejector, and slid up to the window, calculating to shove a tonic into whoever it might be that was peering about my claim. I looked out so as to get a good idea where I wanted to sink on him, and then I thought before I mangled him, I'd ask if he'd any choice about what part of his vitals he wanted to preserve, so I sings out to him:

"Look out below there, pard, for I'm going to call the meeting to order in a minute. Just throw up your hands if you please, and make the grand hailing sign of distress, or I'll have to mutilate you. Just show me where you'd like to have the fatal wound, and be spry about it, too, because I've got my brief costume on, and the evening air is chilly."

He didn't understand me, apparently, for a gurgling laugh welled up from below and the party sings back: "Hullo, fatty, is that you? Just looking to see if you'd fired up yet. You know I was to come 'round and flag you if second seven was out. Well I've been down to the old man's to see what was on the board. There is two hours late and four is reported on time. There's two seven out and two sections of nine. Skinny'll take out first seven, and Shorty'll pull her with 102. It's you and me for second seven, with Limber Jim on front end, and Frenchy to hold down the caboose. First five is up-side down in a washout this side of Ogallala, and old-time's his name that run 258 got his crown sheet caved in, and telescoped his headlight into the New Jerusalem. You know the little Swede that used to run extra for Hotbox on the emigrant for a while? Well, he's firing on 258, and he's under three flats and a coal oil tank, with a beam across his coupler, and his system is more or less relaxed. He's gone to the sweet subaquated, too. Rest of the boys are more or less demoralized and side-tracked for repairs. Now you don't monkey around much, for if you don't loom up like six-lits and go out on the track, the old man'll give you a time check, and the Oriental grand bounce."

Then I slowly uncorked the great blood purifier, and moving to the footlights where the silvery moon beams could touch my dazzling outline, I said:

"Pardner, I am pleased and gratified to have met you. I don't know the first dand-busted thing you have said to me, but that's my misfortune. I am a plain miner and my home is in the digestive apparatus of the earth, but for professional melody of chin you certainly take the cake. You also take the cake basket and what could pie there is left on the dump. My name is Woodtick Williams. I discovered the Feverish Hornet up on Slippery Plum. I am proud to know you. Keep right on getting more familiar with your profession, and by and-by when nobody can understand you, you will be promoted and respected, and at last be a sleeping-car conductor and revel in the highest mental claim and widest shoreless sea of intellectual stagnation that the world ever saw. You will."

Then I took the pillow-shem and wiped some of the pulverized crackers off the soles of my feet and went to bed in a job of gloom.

Cattle in a "Parlor" Car.

N. Y. Tribune.

A "parlor" cattle-car, on exhibition at the Union Stock Yards, attracted the attention of cattle dealers and railroad men yesterday. It is the size of an ordinary car, but is so arranged that each animal has a stall to itself. The space is so economized that the car accommodates twenty head of cattle or four more than an ordinary car. By a mechanical contrivance, which is operated from the end of the car, the cattle can be fed and watered in their stalls, all at the same time, and as often as necessary, the feed being stored in the top of the car. In a trip from Cincinnati with twenty head of cattle, unloaded yesterday, they showed a loss of only 2 1/2 per cent, and had not been out of the car. With the ordinary cars the cattle have to be unloaded and fed three times on the trip from Cincinnati, and they show a loss of from 8 to 12 per cent, beside being bruised and otherwise injured by being huddled together. The use of a car like that on exhibition yesterday, stock dealers said, would improve the quality of meat and be a saving to dealers and railroad companies, besides serving the ends of humanity.

LA ROCHE & SCOT.

Slaven's Effervescent California Fruit Salt.

Is prepared from sound, ripe fruit, by an experienced and vital chemist, who has spent years in experimenting on its preparation. It is manufactured by a special process known only to the proprietor. This preparation is a safe, simple and efficient medicine for regulating the action of the stomach, liver and kidneys. It is most particularly recommended for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Bilious Constipation, Nausea, Flatulency, Kidney and Liver Troubles, Over-indulgence either in eating or drinking, etc. As a purifier of the blood in all scrofulous diseases, it has no equal. It removes all eruptions from the skin, and has a cooling and invigorating effect on the system. The "Fruit Salt" is entirely different from any of the effervescent salts or sedative preparations in the market, being manufactured from Fruit. For sale by all druggists.

Urbano & Shoemaker, apr 13

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease, Consumption. Ask yourself: can you afford for the sake of saving to let your cough run on for weeks, or months, or years, to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves the lungs, and whooping cough, at once. Mothers do not be without it. For lambs, kids, sheep, or chest, use Shiloh's Porous Plaster. Sold by Oshburn & Shoemaker, druggists, Reno, Nevada. nov-20-d&w

Women Never Think.

If the crabbled old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicine to keep their families well, and would none their sagacity and wisdom in selecting the best medicine and chemists, the unprosperous and credulous have been induced to use some of the so-called liquid beautifiers, all of which are known to be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impossible to restore it. Mothers should be very careful to see that their daughters do not use these preparations, but ask for and obtain Slaven's Harmless Toilet Face Powder. The only harmless beautifier. For sale by Oshburn & Shoemaker.

If you want fresh groceries, hard or tinware at bedrock prices, go to Chas. Kunst. feb 7

Wrinkled Faces.

It is a painful sight to see young ladies in their teens with wrinkled and prematurely old faces; nevertheless it is quite common, and to any one who observes the tendency of the times the reason is very apparent. Owing to flaming advertisements and bogus certificates, in which are used the names of eminent physicians and chemists, the unsuspecting and credulous have been induced to use some of the so-called liquid beautifiers, all of which are known to be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impossible to restore it. Mothers should be very careful to see that their daughters do not use these preparations, but ask for and obtain Slaven's Harmless Toilet Face Powder. The only harmless beautifier. For sale by Oshburn & Shoemaker.

We have a speedy and positive cure for Catarrh, Discharge from the mouth and throat, in SHILPH'S CATARRH REMEDY. A nasal injector free with each bottle. Use it if you desire health and sweet breath. Price 50 cents. Sold by Oshburn & Shoemaker, Reno, Nevada. nov-20-d&w

THE "SUN" ON CONKLING.

Sensors Conkling and Platt accompanied their resignations with a voluminous explanation why. This document shows that the Robertson nomination was the sole cause of Rowcoe's anger, and the Sun says of the matter.

The resignation of the two New York Senators is a highly sensational proceeding. The only argument that can be presented justifying such a manifesto is that the Republican Administration and the Republican majority of the Senate have resolved to appoint to that office in this State which controls the opinion and votes of the greatest number of men a determined and uncompromising antagonist of Conkling and his followers—
—an antagonist who is at the same time the most cunning of politicians, and this seems to involve a policy of unparliamentary hostility toward the two Senators, it becomes proper for them to turn their trust into the hands of the Legislature in order that it may either adopt and commend this policy or, on the other hand, may condemn the policy or set its seal of approbation upon the two Senators by electing them once more to the offices which they have now resigned. It is a novel as well as a far-reaching complication which Mr. Conkling has now added to the previous difficulties of the Republican situation, and all intelligent men will wait with unaffected interest to see how it comes out. But if Conkling should be beaten in the Legislature as well as in the Senate will such a disaster crush him, or will it make him a greater man than ever? Events will answer.

EDITORIAL NOTES.

The Silver State copies from an exchange certain statements and so-called arguments against the Asylum bill. If the Silver State would simply read the articles of the constitution which apply to the limitation of State indebtedness and the lending of school money, that paper would see clearly that its space has been wasted. There is nothing strange in the lack of information or reasoning power which characterizes the originator of these fallacies, but the Silver State has usually been just and accurate.

Eureka is a phenomenal town and the Enterprise is a phenomenal newspaper. Eureka has not one Conkling man, and the Enterprise has more credulity than the masses. The GAZETTE publishes to-day a telegram which explains this note. It is becoming plain that the superior ability of the Chronicle has converted its morning contemporary into a Democratic journal. Since the recent change in ownership the Enterprise has shown marked Democratic tendencies.

Mr. Conkling has little or no journalistic support in New York State. The Times, Tribune, Albany Evening Journal, Utica Herald, Rochester Democrat and Chronicle, Buffalo Express, and almost all the leading newspapers side with the President, including those which have heretofore stood by Conkling.

The Los Angeles real estate agent who some time ago put forth the claim of leading a sinless life for the past thirty years, was recently arrested and fined \$30 for carrying on business without a license. He ought to have been jailed in the first place for being a transparent liar.

The banks of Storey county have put up a placard in their places of business, notifying patrons that hereafter they will discount silver at the rate of one per cent. Our Reno banks only discount at a half.

Somebody has wrong in a copy of Dick Turpin on the Bodie Free Press editor, and he devotes a column editorial to criticism. Says it has a bad effect on boys and advertises it handsomely.

Platt's resignation shows that Conkling represents the State of New York. Conkling's resignation shows that he desires to represent the United States of America.

The Chief of Police in Virginia will enforce the curfew law. The night-

wandering hoodlum will not be tolerated on the Comstock. Why not try it here!

Shoemaker of the Free Lance ought to kill his mailing clerk. The paper comes to hand each morning looking like an Old Judge cigarette.

The legal answer to the Conkling and Platt complaint would be that it "does not state facts sufficient to constitute a cause of action."

They are testing the Salary Act in Eureka, and we understand that Judge Rising, of Storey county, also has the act under advisement.

Does Clarke let a contract to the Commissioners or do the Commissioners let a contract to Clarke?

The Truckee Republican says that beef is a necessary and indispensable article of food.

The New Mexican states that Durango is in the control of the desperadoes, who live upon what they can get by thieving and robbery. They raid the country far and near, and the cattle which they run off are killed in Durango openly, and sold. Four hundred cattle were captured at one time from herders on the Las Animas.

Sheep Commissioner McCabe of Columbia county, W. T., finds the loss of sheep in that county, since November last to be 18,851 head. Of this number he reckons that 12,000 died from the severe weather of the past winter. He had just completed his semi-annual tour of inspection and found, out of 76,343 sheep examined, 7,418 affected with the scab.

The Arizona Quarterly says of the Silver King mine. The most wonderful of all the sights beheld here, is the effect of a recent blast which has dislodged masses of quartz, tons of it being thrown out, beautiful and white, glittering and spangled with the dendritic virgin silver, ivy-like, infolding the bulky masses. Here can be seen native silver, silver copper glance, zinc-blende, galena, containing a great amount of antimony, copper pyrites and iron pyrites.

The Carnival.

The skating carnival this evening at the Pavilion will be the social event of the season without doubt. It is said that many notables will be present, and the arrangements seem to suit everybody. Cara's band arrived today in a four-in-hand. The ladies have been busy for some days in preparing their costumes, and the attendance will no doubt be large. The musical part of the entertainment will be worth the price of admission.

LEGUMINOUS LOGIC.

What Would We Do Without the Succulent Spud?

The humble potato is becoming almost as much deserving the title of "the staff of life" as wheat. About two hundred million bushels a year are raised in America, and almost entirely for home consumption. The potato is a native of South America, where it grows wild. It belongs to a numerous tribe, many of whose members are deadly poisons. The family name is *Solanaceae*, and has over 150 species, including the deadly nightshade, bitter-sweet, hellebore, jimson weed, belladonna and atropa, the latter a very dangerous plant. A kindred tribe is the *Nicotiana* family, the first of which is tobacco. Another near relative is the tomato, also a native of South America. The potato is not a root proper, but a fleshy tuber, and the eyes are buds, the same as those of a plant. The great value of the potato as food is given it by its 2 per cent. of flesh forming substance and 21 per cent. of starch and fat forming material. Of the rest 75 per cent. is water. Chemically, the potato is composed very nearly of the same matter as wheat, and in something like the same proportions. Its value as food is well shown in the fact that it was the principal support of the Irish people for two hundred years, and at a time when they furnished the brawn and muscle to build railroads, dig canals, erect houses and clear farms, furnishing the foundations for the wealth of every English speaking nation. The rich lively blood and abundant lung power rendering them able to stand all kinds of climates and an enormous amount of fatigue. The failure of bread and rice to drive the potato off the table of even the most luxurious people shows what a great delicacy it would be considered if it were less abundant. A light warm loaf is the best soil for a good field and high quality, but it is pretty much at home every where. Rich prairie or clay ridges, drained swamps or newly cleared forests all have something on which it feeds and thrives. Land containing potash is always an abundant potato producer. Wood ashes are for this reason an excellent fertilizer. It is doubtful if any other crop will produce as much food as an acre in potatoes and the fact that in spite of the bugs and fungi that have sprung up to retard its growth it is constantly improving in size, quality and productiveness.

High-toned Runaway.

Yesterday afternoon, as A. Jose was hauling a load of rock from Chase & Thyes' cellar, the lead bar broke and the two leaders struck out in different directions for Wood River. One of the horses took the sidewalk down Commercial row and along the east side of Virginia street with the single tree swinging at his heels. He jumped off the walk at the corner of Second street and was going along well, when the walk broke under him and he was thrown clear into the street. The horses were not injured and it is a wonder that some one was not run over on the sidewalk.

Pilgrim's Progress.

A letter has been received from J. E. Jones postmarked Fort McDermott. He broke an axle at Cox's station, another axle at Sheep Head and a wheel at some point beyond that. It looked as though the outfit would have to stop, but Joe got mad then, fixed the wheel himself and the pilgrims still progress.

Keep Your Money.

Anybody, north, east, south or west can obtain the new beer from Geo. Becker's Pacific Brewery. Here is a chance to keep your money at home. The new beer will satisfy the trade if money and care can produce a good article. Send in your orders to George Becker, Reno, Nevada.

Virtue Its Own Reward.

The White House continues to do a large business notwithstanding the dull times. Abrahams Brothers carry a stock of goods which is seldom seen in a town like Reno, and people are beginning to know that the White House always keeps up with the times.

The Asylum Suit.

Judge King informs the GAZETTE that he is working on the injunction suit and will render his decision in Carson on Saturday next. The diligence shown by His Honor in this case is very creditable to him and gratifying to his constituents.

Carnival Programme.

Cara's famous orchestra of six pieces will furnish the music for the maskers to-night. During the skating the band will play a choice selection of waltzes from the latest popular operas, Olivette, Royal Middy, Bells of Corneville, La Fille de Mme. Angot and others. Ernest Hall will call for the dance, and the programme comprises the latest and most popular dance music.

Manager Tucker requests all parties who do not desire to skate for the prizes to vacate the floor promptly at 9:30. The skating for prizes has been arranged in this way: Straight skating, fancy skating and double skating will each last ten minutes.

BY TELEGRAPH.

The "Enterprise" and "Sentinel" on Conkling.

EUREKA, Nevada, May, 18.

The resignation of Conkling and Platt created considerable excitement here among the Republicans. The Democrats of course, enjoy the fun. The *Sentinel* made a thorough canvass of the town, and failed to find even one Republican who indorses Conkling. The feeling for the Administration is practically unanimous. Last year the feeling here was strongly for Blaine as against the Grant-Conkling third-term combination. It is even more pronounced now than then. The wish is almost universal that Conkling may fail to get back into the Senate.

The Republican Caucus.

WASHINGTON, May 18.

The Senate Committee on Commerce this morning decided to report in favor of confirming the nomination of Judge Robertson as collector of the Port of New York; General Merritt as Consul General to London, and General Badoen Charge d' Affaires to Denmark. These nominations will be reported back to the Senate during to-day's executive session, but will doubtless be laid over under the general rule until to-morrow.

The Vacant Chair.

ALBANY, May 18.

There is talk that Chauncey Depew will at once make a canvass for the Senate, and Crowley's friends will push him. The Stalwarts confidentially say that Conkling promised to pull Platt through. Sherman S. Rogers is talked of. L. P. Morton will not be a candidate. The Senate may refuse joint action in the novel and startling proceedings. Robertson is cheerful and confident.
